

# INTRODUCING THE 1150XHD **ROCK HAWG**

## APPLICATIONS:

- Full depth concrete pavement removal
- Partial depth concrete pavement removal
- Mass excavation of rock (I.E. basements, basins, roadways)
- Grading and shaping of rock
- Trench excavation of rock
- The Rock Hawg can be equipped with a truck loading conveyor to help reduce material handling.

## MAJOR BENEFITS:

- In the concrete pavement removal applications, it greatly reduces recycling costs by eliminating the need for primary crushing.
- The Rock Hawg eliminates the need for any type of concrete breaking or cracking prior to performing pavement removal.
- The Rock Hawg eliminates the need for saw cutting prior to performing pavement removal.

## TRENCHING DIMENSIONS

0-1'8"  
0-50 cm

10'3"  
312 cm
